OUTPATIENT INFUSION THERAPY

The Infusion Center

Outpatient Infusion Therapy
in a Caring, Comfortable
Environment

YAVAPAI REGIONAL
MEDICAL CENTER

Exceptional Care with Your Comfort and Privacy in Mind

Yavapai Regional Medical Center (YRMC) provides exceptional infusion therapy services that combine advanced technology with knowledgeable, well-trained staff focused on patient comfort and privacy. Our Vision of a Total Healing Environment is reflected in the care each patient receives from our experienced Infusion Center experts who are guided by orders from each patient's physician.

Infusion Center features include:

- A private, covered patient entrance with convenient patient drop-off and plenty of parking.
- 12 infusion bays with comfortable seating, a personal television with basic cable, and a place to hook up a personal laptop or tablet.

- Close proximity to other YRMC services, including advanced wound care, medical laboratory and medical imaging services.
- On-site patient registration with the exception of weekends, evenings and holidays.

Medicine...the Way Your Body Needs It

For maximum effect, medication must be delivered in the way it is used best by the systems in your body. Some medicines can be swallowed, some work well when injected into body tissue, and others must be delivered directly into the bloodstream via intravenous (IV) therapy.

Our services include:

- IV medication administration and injections
- Chemotherapy
- Blood transfusions
- Central venous access device maintenance (PICCs and Implanted Ports)
- Therapeutic phlebotomy
- Enzyme replacement therapy
- Hydration
- Disease specific specialty drug therapy (Crohn's Disease, Rheumatoid Arthritis, MS, Osteoporosis, Pompe's, Gaucher Disease)

BEFORE YOU ARRIVE

- We are located next to the Family Birthing Center on the campus of YRMC East in Prescott Valley (please see the back of this brochure for directions).
- We are committed to confidentiality regarding your treatment and the treatment of other patients.
- We cannot always anticipate how much time a procedure will require because each patient can respond differently to treatment. Please plan your day in a flexible way.
- Arriving on time expedites your schedule and ours. Please call if you will be late or have to miss your appointment.
- To ensure as much privacy as possible for our patients, please keep visitors to a minimum.
- Children under 14 years of age are not permitted in patient care areas.

WHILE YOU ARE HERE

What You Should Wear

- Wear loose fitting clothing.
- Please do not wear cologne or perfume as other patients may be sensitive or allergic to fragrances.

What to Bring

- Food and beverages are welcome, especially if you will be at the Infusion Center for an extended period of time.
- A sweater or small blanket if you tend to get cold.
- Any medication you need.
- Entertainment, including games and laptops.

When You Arrive

- Please check in when you arrive and then have a seat. We will call you when we are ready to serve you.
- Please turn your cell phones off or put them on vibrate. If you make calls, thank you for keeping them brief and keeping your voice low.
- YRMC is committed to providing you with the best service and technology but we appreciate your patience if delays occur.
- Please do not stop or reset the IV pumps. Always ask for assistance from our staff.

After Your Visit

- Keep your scheduled appointment with your physician and let your physician know about any adverse reactions or other problems that may occur after you leave our care.
- Our staff will keep your physician apprised of your response to treatment.
