

## LaNette Smith, MD, FACS BREAST SURGERY

LaNette Smith, MD, is an accomplished breast surgeon who has cared for patients with breast cancer for more than 20 years.

Her interest in pursuing breast surgery as a specialty developed throughout her five-year, general surgery residency. During that time, women with breast cancer sought her out to care for them, inspiring Dr. Smith to pursue a breast surgery fellowship. Even with only 11 such fellowships nationwide, she was selected for one of those coveted positions.

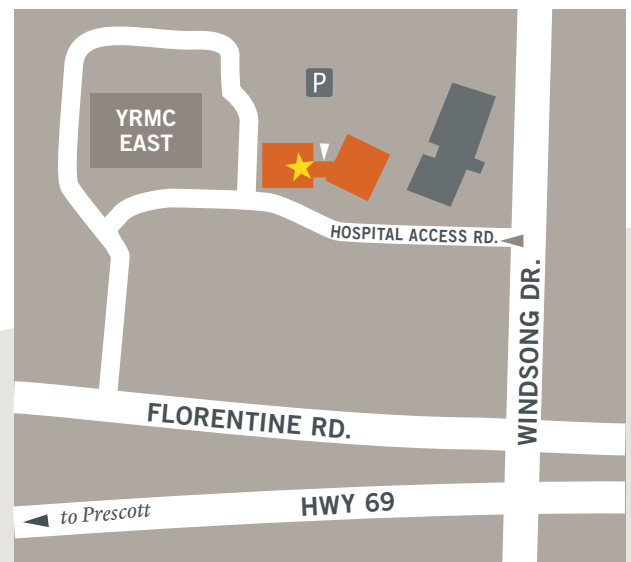

Following her fellowship, Dr. Smith returned to Tulsa, Oklahoma. There, she established the community's first dedicated breast surgical oncology clinic. Her rapport with her patients – grounded in her belief in caring for the body, mind and spirit – led to numerous “top doctor” recognitions.

A board-certified surgeon, Dr. Smith uses the latest breast surgical techniques. She has published peer-reviewed articles in many prestigious journals, including the *American Journal of Surgery*®, *Annals of Surgical Oncology* and *Journal of Surgical Oncology*.

Dr. Smith has also served as a clinical associate professor at the University of Oklahoma College of Medicine, Tulsa.
